Dear Ratepayer:

Re: Leafy Spurge & Absinthe Wormwood

The Provincial government once again has a program available through the Rural Municipalities to help with Invasive Plant Species control. The R.M. of Estevan No. 5 will be taking part in the program to help gain control of the leafy spurge & absinthe wormwood problems within the municipality.

The R.M. has licensed chemical operators on staff who will be doing the spraying. The R.M., through the program, will be providing the chemicals (safe on grassy vegetation) and will charge you, the producers a custom rate of \$100/hour for the application.

We would like to encourage anyone with a patch of leafy spurge or absinthe wormwood to take part in this program. It is a great opportunity to get the chemical paid for.

**If you wish to participate, please return the information below to our office by May 19<sup>th</sup>**

I/we, \_\_\_\_\_ hereby request the R.M. of Estevan No. 5, to provide spraying for Leafy Spurge on my/our property:

- I/we agree to pay the R.M. \$ 100/hour custom work rate for the application.
